PROFILE

AI/ML Engineer and Full-Stack Developer specializing in intelligent systems across healthcare and traffic optimization. Experienced in end-to-end AI pipelines and scalable backend architectures. Founder of TechNeekX (100+ members), national hackathon winner, and 50+ hackathon participant.

EDUCATION

B.Tech – CSE (Artificial Intelligence)

2024 – 2028 (Expected)

Babu Banarasi Das University, Lucknow | CGPA: 7.5

EXPERIENCE

Founder

2025 – Present

TechNeekX

- Built and scaled a 100+ member AI tech community; led 4+ large-scale events including InnVedX and Kalpathon 2.0.
- Designed hackathon workflows (GitHub submissions, mentorship cycles) and managed partnerships and operations.

Python Developer Intern

Dec 2025 – Mar 2026

Woject Technologies

- Developed backend automation and modular Python solutions under production-like constraints.

Python Developer Intern

Apr 2026 – May 2026

QSkill

- Built data-driven Python workflows and optimized backend logic for improved system efficiency.

Content Writer Intern

Mar 2025 – Apr 2025

CooknKlean

- Created engaging content for food and lifestyle brand; delivered consistent copy across digital platforms over 45 days.

PROJECTS

FractureVision-AI — AI-powered medical imaging for fracture detection

- EfficientNet-based classification with Grad-CAM explainability; deployed real-time inference via Streamlit.

FlowX — Real-time traffic intelligence and optimization system

- YOLO-based vehicle detection with adaptive signal control and emergency vehicle prioritization across intersections.

Revibe Hub — AI-driven innovation platform for sustainable problem solving

- Developed an AI-powered recommendation system for e-waste reuse, integrating guided workflows and AI-assisted learning to drive accessible, real-world innovation.

SKILLS

Programming: Python, JavaScript, Java, C/C++, SQL

AI / ML: PyTorch, TensorFlow, Scikit-learn, NLP, Computer Vision, LSTM, YOLO

Web Development: React.js, Next.js, Node.js, Flask, Django, FastAPI

Tools & Platforms: Git, GitHub, Docker, AWS (Basics), Streamlit

Core Strengths: AI Engineering, System Design, Problem Solving, Leadership

ACHIEVEMENTS

- 🏆 1st Place – HackBio, IIT Mandi • 🏆 Finalist – IIT Patna Hackathon • 🏆 2nd Place – Tech Expo, BBD University
- 🌐 High Commendation – 21st INMUN • 50+ hackathons with multiple top placements

CERTIFICATIONS

ML Using Python – Simplilearn • Generative AI – Google Cloud • Data Visualization – Great Learning • Kaggle (ML, SQL, Deep Learning) • Certifications from IITs, IIMs & GDG
